Pointscore Calculation

Round points are awarded starting at 10, then descending down one point at a time for each position in the Class. Only club members are included, therefore you can finish say, third in your class on the day, but still receive 10 points if you are the first NSWRR Club member.

Bonus points are awarded starting at 3, then descending down one point at a time for each position in the Class. The Class must have 4 or more participants, but not necessarily from the NSWRR Club, in order for bonus points to apply.
